While all bulls are sold as potential breeding stock, due to their age at the time of Sale, their fertility cannot be proven. The guarantee and indemnity provided is for the purchase price of the bull only (as submitted by the society). ## CONDITIONS

1. That incapacity or infertility as a result of injury from whatever cause, or by illness or disease suffered or contracted after the date of sale is not covered by the Guarantee.
  2. Should an animal be re-sold during the period of the guarantee the new Purchaser will not be entitled to the benefit of the guarantee.
  3. Under no circumstances will the insurers be liable for more than the purchase price of the animal.
  4. Every bull presented for sale has had a fertility test completed by a veterinary surgeon within 60 days of the sale date.
  5. FBD Policy applies to the Republic of Ireland only. North Ireland and mainland UK are excluded from policy cover.
- (b) If, upon purchase of the bull, it is found impracticable for the Purchaser to fairly try the bull within the period stated at (a), due to the Purchaser's normal calving programme, the Insurers must be informed in writing immediately after the Sale. At the discretion of the Insurers the date of commencement of the three month guarantee trial period may be deferred for a further month beyond the date of purchase provided in which the Purchaser has notified them as aforesaid that he proposes to commence using the bull. The Insurers shall not unreasonably refuse to extend the time and in any event shall communicate its decision in writing to the Purchaser within seven days of receipt of the said notice from the Purchaser
- (c) The Purchaser shall give notice to the Insurers of an inability of the bull to put a female in a state of pregnancy by natural service, or a suspected inability in this respect not before the expiration of one month nor after the expiration of three months from the date of sale or of the bull attaining fourteen months, or any extension of the commencement of the trial period granted pursuant to (b) above, whichever is the later.

## The foregoing guarantee is subject to the following conditions: –

- (a) The bull shall be fairly tried with a view to him putting a female in a state of pregnancy by natural service within three months of the date of sale, or within three months of attaining the age of fourteen months, whichever is the later. For the purposes of this guarantee a bull shall not be deemed to be "fairly tried" when less than three female animals in heat have been properly presented to or run with the bull.
- (d) On receipt of the notice referred to in (c) and in order to validate the fertility of the bull, the Insurers may request at their discretion that any of the following must be submitted to the Insurers, at the purchasers own expense, within 30 days of the date of notification:
- (i) A Bull fertility test and associated report;

- (ii) A certificate and report by a qualified veterinary surgeon declaring that the inability to put a female in a state of pregnancy by natural service is not the result of injury, accident, disease or neglect happening after the sale, and that he has examined the females on which the bull has been tried and has found them in a normal breeding condition and that they are not responsible for the bull's inability to put a female in a state of pregnancy by natural service;
- iii) A Scanning report
- (e) The Purchaser shall (if required) allow a Veterinary Surgeon appointed by the Insurers to examine and try the bull.
- (f) The insurer assumes salvage of any bull subject to a claim or deducts the salvage value from any claim settlement.
- (g) In the event of the Insurers and the Purchaser failing to agree on whether or not the bull is capable of fulfilling the guarantee in accordance with the forgoing provisions, or in the event of any other dispute arising between the parties concerning the implementation or interpretation of this guarantee, the said dispute shall be referred to the decision of a single arbitrator, to be appointed by agreement of the Insurers and the Purchaser, (Or in default of agreement to be nominated by the President for the time being of the Incorporated Law Society of Ireland). The aforementioned referral to arbitration shall be a condition precedent to the commencement of any other legal action. Claims not referred to arbitration from the date of disclaimer of liability shall be deemed to be abandoned.
- (h) All claims will be between the Purchaser and the Insurer subject to the terms and conditions of the guarantee.
- (i) All veterinary regulations under the Guarantee must be strictly adhered to and the rules of good pedigree animal husbandry must apply at all times.
- (j) The Society, the Auctioneer or the Mart Management/Owners will not be under any liability whatever to the Purchaser in respect of any loss sustained by the Purchaser howsoever arising, whether it be consequential or otherwise.

## Female Fertility Guarantee

Any cow or heifer realising 500 gns, or more that is stated by vendor as having been served or artificially inseminated not less than 12 weeks before the date of the sale shall be guaranteed in calf to the service date or date of artificial insemination and to the bull stated, unless any alteration to the service particulars is announced from the rostrum or by the vendor at the time the animal is sold. The term "running with the Bull" implies no guarantee of pregnancy unless specifically stated by the vendor at the time of sale, neither shall the provision by the vendor of a certificate of positive pregnancy diagnosis imply any such guarantee this being merely an expression of opinion.

Every heifer sold as unserved shall be so guaranteed and all such heifers (unless sold suckling their dams) shall carry a guarantee that they are capable of breeding. Calves sold suckling their dams are given to the purchaser free and no guarantees apply unless specifically stated by the vendor at the time of sale.

No claim under these Rules will be effective

unless made to the Auctioneers or to the vendor within the following time limits, as applicable, viz:

- (a) In the case of a cow or heifer sold as being in calf which proved NOT to be in calf, within 49 days of the date of sale.
- (b) In the case of a cow or heifer which, although in calf, does not calve to the stated service or insemination date, within TWO CALENDAR MONTHS of the date that the animal should have calved according to the particulars of service or insemination stated in the catalogue of sale, in all such cases, no claim will be admissible unless there is an interval of more than four weeks between the presumed due date (according to the stated particulars of service or insemination) and the actual calving date.
- (c) Where a cow or heifer calves at a later date than the due date the onus of proving the identity of the service bull shall be upon the vendor.
- (d) Where a heifer is sold as unserved and which subsequently proves to have been in calf at the time, within SIX CALENDAR MONTHS of the date of sale.
- (e) In the case of a maiden heifer which proves incapable of breeding because of malformation or abnormality of the genital system, not before the animal attains the age of TWENTY SEVEN MONTHS and no claim under this rule be admissible after the animal has attained the age of THIRTY SIX MONTHS.

**NOTE:** Any female (cow or heifer) that has been flushed for embryo transplant will be

EXCLUDED from the terms of this guarantee but individual vendors of such animals shall have the option of giving their personal guarantee to be announced at the time of sale. No claims will be admitted under these rules where it can be proved that a cow or heifer is carrying a mummified calf, or has aborted or re-absorbed a foetus and no guarantee is given or implied that any cow or heifer will carry a calf full term. All claims must be submitted to the vendor and the Secretary of the Society and shall be resolved in accordance with the provisions of clauses (f) and (g) below.

- (f) In the event of the vendor and the purchaser failing to agree on whether or not the heifer is incapable of breeding in accordance with the foregoing provisions, or in the event of any other dispute arising between the parties concerning the implementation or interpretation of this agreement, the said dispute shall be and is hereby referred to arbitration by a single arbitrator, to be agreed between the vendor and the purchaser (or in default of agreement to be nominated by the President for the time being of the Incorporated Law Society of Ireland), such arbitration to be conducted in accordance with the Arbitration Acts 1954 and 1980. The aforementioned referral to arbitration shall be a condition precedent to the commencement of any other legal action.

In the event of the vendor and purchaser (or in default the Arbitrator) concluding that a heifer is incapable of breeding in accordance with the foregoing provisions of this Agreement, then the Vendor shall

- (1) Be bound to accept the return of

the heifer and on delivery of it to his premises (Unless some other arrangements shall be mutually agreed upon) to refund to the purchaser the whole of the purchase price of the heifer together with the expenses of the purchaser's veterinary surgeons, the cost of carriage from the purchaser's premises to the Vendor's premises, the carriage and keep of the heifer from the date of notification of the claim, provided however that such expenses and costs shall not exceed an amount equal to ten percent of the sale price of the heifer.

- (2) Pay the costs of the arbitration and the arbitrator in accordance with any direction given by the arbitrator in this regard. Save as aforesaid the vendor shall not be under any liability whatever to the purchaser in respect of loss sustained by the purchaser however this loss arises and whether it be consequential or otherwise.
- (g) Where it is determined by agreement, arbitration or otherwise that a heifer is incapable of breeding, the vendor must re-take possession of the heifer and refund the purchaser the sale price of the heifer together with agreed expenses up to an amount not to exceed ten percent of the sale price of the heifer. The vendor shall not be under any liability whatsoever to the purchaser in respect of any other loss sustained by the purchaser however this loss arises and whether it be consequential or otherwise.

the General Conditions of the Auction, these conditions shall prevail.

Any dispute as to any matter for which no provision is made in these Rules shall be referred to an Arbiter or Arbiters to be appointed, failing agreement between or amongst the parties, by the Auctioneers or by the Society. The decision of the Arbiters so appointed shall be final and binding on all parties to the dispute. Any Arbitration under this Clause shall be subject to the provision of the Arbitration Act for the time being in force in the Republic of Ireland and shall be deemed to be a reference to Arbitration there under.

The Auctioneers act as Agents for the Vendors and any action taken by a Purchaser must be against the Vendor and not against the Auctioneers, the Mart or the Society. No responsibility whatever rests with the Society, the Mart or the auctioneers in regard to the qualifications of the animals sold by Auction or being sold privately and all purchases must be made on this distinct understanding.

These Conditions of Sale shall be interpreted in accordance with the law of the Republic of Ireland.
