Ballybawn Limousins – Where it all began!!

Our story began in 1997, when we purchased our first limousin bull to breed with our commercial cows. We quickly realised that they were breeding super calves so we decided to fully invest in pure bred Limousins. From then on, we only used top quality French, Irish and English bulls through AI.

Over the years we built up the herd with strong bloodlines, keeping a close eye on what stood out during the sales, shows in Ireland and abroad. As the years went on judging Limousins at shows and sales became a passion, of which I thoroughly enjoy as a pastime, especially going forward.

One of the main bloodlines in Ballybawn herd started after the purchase of Ballynerrin Anneka, daughter of FR1 Ravissante, Paris Champion who was purchased by the Crawford Brothers. We have grand-daughters, great grand-daughters at the sale.

Another of our rare bloodlines, Ideal 23 x Drummin Cliona, with the purchase of embryos, resulting in twin heifers from Drummin Peach, the mother of Drummin Cliona. We have one of these for sale today, Lot 14. Also, two more Ideal 23 x Drummin Cliona with daughters and grand-daughters at the sale.

Our final bloodline, comes from the Wood

Road herd, OV Nadia B bloodline, with daughters and grand-daughters for sale today. This bloodline has seen some super breeding over the years which transferred to excellent prices being paid for these stock.

We have taken the decision to sell our entire herd as we are moving on with the next generation and their desires, which is breeding Friesians. We have loved every minute of breeding, judging and showing all of our Limousins for almost a quarter of a century.

We would like to take this opportunity to wish all of the purchasers of our stock today many happy years of breeding ahead. We would like to thank everyone who help us in the run up to today's sale.

Happy breeding.

Noeleen & Michael Pat Murphy
